UNIVERSITY OF LEEDS

Disability Services at the University

- SENCO doesn't exist at university – search for 'disability services'
- [Self-identify disability](#)
- Think about disability support early:
 - Physical and sensory access
 - Methods and modes of teaching
 - Support required
- Apply for funding as soon as it opens (March) as it can take 15 weeks once you arrive at University to work through the process.
- Register with [Disability Services](#) early (April)
- Better to have support and not use it than have no support and need it!
